philkt.me

EDUCATION

 Georgia Institute of Technology ('16-'18)

- M.S. Human Computer Interaction (IC track)

 Stony Brook University ('12-'16)

- B.S. Computer Science with Honors
- Minors in Digital Art and History
- Studied abroad at EFREI and University of Seoul

EXPERIENCE

 UX Designer, Cool Blue Interactive (Feb '17 -)

- Designing websites for clients, from information architecture, to wireframes, to high fidelity

 Researcher, Augmented Env. Lab (Fall '16)

- Developed an augmented reality storybook for the Augmented Environments Lab using Argon.js

 UX Engineer Intern, Pypestream (Summer '16)

- Developed admin CMS for Pype Managers in React.js and Redux.js, resolved >100 CSS bugs
- Coded new features like agent management for a 3.1 launch to be used by enterprise clients
- Participated in UAT and designed mockups for new features requested by clients in Sketch

 Student Leader, Codepath (Spring '16)

- Led a 1 app per week 12-week student bootcamp to teach and learn iOS development in Swift

 Digital Products Intern, HBO (Summer '15)

- Assisted in front-end development using react.js of an internal HBO CMS
- Developed a search feature from UX research, UI designs, and front-end implementation
- Designed mockups and wireframes of potential HBO NOW features, and presented to SVPs

PROGRAMS

 Xcode  Sketch  Unity  Photoshop

 Framer  Blender  Invision  After Effects

 Marvel  Zeplin  Figma  Illustrator

PROJECTS

 Sous Chef (Jan '17)

- Designed and coded in Python an Amazon Echo skill to use Alexa as an assistant chef

 The Hive (Fall '16)

- Researched and designed a conceptual tree to guide students to open seats in the library to reduce seating times

 Medi (Fall '16)

- Designed a pill ecosystem with an app, watch, and dispenser so patients take their prescriptions properly

 Graffiti (Sept '16)

- Designed and developed an AR app in Swift for iOS which allows users to leave virtual graffiti around the world

LANGUAGES/ FRAMEWORKS

 HTML  React

 CSS  Sass

 Javascript  Python

 Bootstrap  Swift

RESEARCH SKILLS

- Survey Design
- Contextual Interviews
- Affinity Mapping
- Low to High Fidelity Prototypes
- Usability Testing
